

| Proceeding 04-233 Comments:

KLOVE serves myself and my family as a resident of the Escondido/San Diego, CA community. It is the only family friendly radio station that my children and I listen to. If KLOVE were to be put off the air- the effect on the local community would be horrible. They not only provide wholesome listening but service announcements for local area events. With all the questionable music and lyrics out there today it is refreshing to have one station that I know I do not need to censor from my family. If anything we need more stations like this. We are strongly against KLOVE being displaced by an LPFM broadcaster with other programming and truly believe that the service provided by KLOVE is in the public's best interest. Thank you for your help,
Tracey Johnson and family
